BRAND NEW FORD CITY Police Car Grant Waits on Trump Administration... (continued from page 1) Program (EIP) that assists municipalities experiencing fiscal difficulties to develop comprehensive multi-year financial plans. The EIP noted that all of the Borough of the EIP needs replaced. I wanted to finish up with one more police car,” Green- lee said. “Then after that, every year that I can apply for the grant, I’m gonna ask for new borough vehicles to meet that EIP that we had done for Ford City Borough.” “Ford City Bor- ough happens to be at the $29,000 for a median family in income, so we qualify for more grants than others,” Greenlee said. The EIP helped the Bor- ough have a plan to apply for tomorrow. “You have to let them know what you want. It just can’t be a random number and we will decide later. They have to make sure that you need it, that it makes sense, and what you plan on doing with it. There are a lot of guide- lines with it.”

Greenlee said the Borough now endures the awaiting process. “The grant was due last year. But due to the change in the administration, some of the funding was delayed. There is no telling when they are going to sign their end of the funding. As they get money in from the new administration, they will get allotted it out to the commu- nities. It could be it could be the end of summer. We are at the mercy of when they sign it.” Ford City current- ly has three police cars. Greenlee said the EIP could give them the new one is pur- chased. “Usually when you get a vehicle, you sell a vehicle. When we get the new Ford Explorer, we will put the blue car out for bid. It needs more repair than it is worth.” Greenlee said it will take approximately 30 days from the time they receive notification of grant approval until his police de- partment can take delivery on the new vehicle.
